

# DEMOLITION GUIDELINES

Demolition Site Address \_\_\_\_\_

Upon applying for a demolition permit within the City of Sault Ste. Marie, please be advised of the following procedures:

- 1) **The City Engineering Department**, second floor, City Hall, 225 East Portage Avenue, must be notified to assure that permits to work in, or on, the City right-of-way, load limit restrictions, etc. are conformed to. **Telephone (906) 632-5730**
- 2) **The City Water/Sewer Department**, 1200 East Easterday Avenue, must be contacted regarding turning off water, removal of metering equipment and inspection of sewer capping in accordance with Department requirements. **Telephone (906) 632-3531**
- 3) **Cloverland Electric Cooperative**, Service Department, 401 Hursley Street, must be notified at least **five** working days prior to starting demolition work. **Telephone (906) 632-2221**
- 4) **DTE Energy**, must be notified at least **ten** working days prior to starting demolition work to coordinate the physical disconnection of underground gas lines.  
(1125 East Easterday Avenue - 632-3330) **Telephone 1-800-533-6220**
- 5) **AT&T**, 210 W. 7th Ave., must be notified at least **two** working days prior to starting demolition work.  
**Telephone (906) 632-9965**
- 6) Prior to undertaking any underground excavating or digging with power equipment, notice of MISS DIG must occur. **MISS DIG Telephone 1-800-482-7171 or 811**
- 7) The owner or contractor must comply with NESHAP regulations, including written notice of the pending demolition prior to undertaking the work. **Dept of Environmental Quality (DEQ)**  
**Telephone 1-800-662-9278**
- 8) The demolition materials must be removed to a landfill site which is licensed for disposal of such materials.
- 9) If any asbestos materials are involved, the permit holder must remove and dispose of said asbestos materials in compliance with all applicable State and Federal regulations, including those enforced by the State Department of Environmental Quality, the Michigan Department of Public Health, Michigan Department of Consumer and Industry Services, and the Federal Environmental Protection Agency. **Michigan Department of Public Health**  
**Telephone (517) 335-8762**
- 10) Care must be taken to ensure that the activities are conducted in such a manner as so to provide for the safety of the public and protection of the adjacent properties.
- 11) The demolition site is to be restored to a safe and reasonable condition, usually similar to adjoining properties.

This is **not** to be construed as a complete list of the rules regarding demolition, but just an informational listing of the basic minimal requirements when receiving a demolition permit.

I, the undersigned, owner/contractor, am aware of the information in this document.
